Dear Mr. Bing:

Thank you for your Freedom of Information Act (FOIA) request dated July 16, 2018, wherein you request copies of "any and all power point presentations, memos, reports or other meetings notes related to the intelligence community's damage assessment concerning the so-called "ShadowBrokers" group -- an entity that began leaking classified material in or around August 2016. The documents requested were authored in 2016 and 2017 by the NSA's Information Assurance Directorate and/or Central Security Service, but would have been circulated within U.S. Fleet Force Command, National Cybersecurity and Communications Integration Center and Coast Guard - Office of Intelligence, among other federal agencies."

Your request was processed under applicable provisions of the FOIA statute, as amended, and the implementing Navy Department directive (SECNAVINST 5720.42F) and some information was found that may be responsive; however, Commander, U.S. Fleet Forces Command is not the release authority for this information. The correct release authority is Commander, U.S. Fleet Cyber Command. In an effort to assist you, your request and the potentially responsive information, has been forwarded to that command for processing and direct response to you. This official will also assess any fees associated with the processing of your request. You may contact them using the following:
